

9/11

By: Rodney Diaz, SOUL Student

So many days of a silent sky.
So many people cry
For those who are injured
And sorrow for those who have died
For once in time we were awake.
We all shared a common enemy. We were filled with hate.
Hand to hand, we are Americans
Free and proud
Old and young faces
We were unified-all different races

For those who are with God
We wish you the best
As in God's green earth they rest.
This planet they may have left
But they are never forgotten.

Kneel down and pray
For the ones gone on 9eleven
They are waiting...for you.... in heaven
