New Firebaugh Center Taking Shape

Firebaugh, CA—

Head Start’s newest center, located at the Hazel M. Bailey Elementary School in Firebaugh, California is in the final stages of construction. The building, formerly the Mulberry Center, represents a huge investment in both the city and people of Firebaugh by the Head Start program. The move to the new location has been long awaited by Christene Maxwell, Teacher Director at the current Firebaugh site. Primarily, because it’s a new, modern facility and it’s larger and can offer more space to the employees and children. Ms. Maxwell has worked for Head Start for more than 25 years and is really looking forward to the day when she can walk into the new building and call it home. The center is scheduled to open by the start of the 2007—2008 school year. Congratulations to all involved in the construction and preparation of our newest center.
